

# FERAL CATS

They live in the shadows -  
the alleyways, empty lots and condemned  
buildings - of almost every neighborhood.

Their lives are short and usually harsh.  
They struggle to find food and water in an  
environment filled with the constant threats of  
disease, starvation, cruelty and predation.

They are the abandoned, the lost and the wild -  
and they need our help.

The ASPCA endorses Trap-Neuter-Return (TNR)  
as the only proven humane and effective method to manage feral cat colonies.

## HOW CAN YOU BE PART OF THE SOLUTION IN KITSAP COUNTY?

**IF YOU FEED FERAL CATS CONTACT US TODAY  
FOR ASSISTANCE WITH TRAP, NEUTER, RETURN.  
206-842-2451 OR TOLL FREE 888-558-7297**

### WE HAVE HUMANE TRAPS TO TRAP FERAL CATS FOR STERILIZATION AT KITSAP HUMANE SOCIETY & RETURN TO THEIR COLONY

All kittens under 6 weeks of age can be socialized and adopted into loving homes. Please make every effort to contact us as soon as you see kittens. PAWS of Bainbridge Island & North Kitsap and Kitsap Humane Society have skilled foster homes to tame these kittens. While it is best to capture females and sterilize them before they are pregnant, it is imperative to capture kittens and remove them from the colony before they perpetuate the reproduction cycle.

For resources on building inexpensive winter shelters, raccoon-proof feeding stations and more, visit PAWS of Bainbridge & North Kitsap online:
